Project Experience

Prosper IT Consulting / Software Development Intern
PortlandTech.org Job Board ASP.NET MVC Application

MARCH 2017 - PRESENT, PORTLAND, OREGON

ASP.NET MVC5 project in Visual Studio. Included Identity
Framework for managing user accounts registration. Worked code
first, using Entity Framework 6 and developed a method to seed the
database with JSON data. Team Foundation Server troubleshooting.
Used Python 3.6 with Beautiful Soup to scrape target sites as JSON.

ZD Design/ WordPress Development

SEPTEMBER 2013 - APRIL 2014, PORTLAND, OREGON

Informal internship through Patchworks Media. Aided in the
development of several small business Wordpress sites. Focused on
HTML, CSS, PHP editing, and Wordpress/ Woocommerce
development.

Education

The Tech Academy/ Software Development
Bootcamp NOVEMBER 2016 - APRIL 2017, PORTLAND, OREGON

15 Week Software Development Bootcamp focused on C# ASP.NET
development in Visual Studio. Courses in Python, database with
MicroSoft SQL Server, and web technologies including HTML, CSS,
JavaScript, jQuery and Bootstrap. Also provided technology
foundations, development industry introduction, version control, and
project management coursework, culminating in a two week
partnered live project.
